### Replant Provisions

A replanting payment is allowed if your soybean crop is damaged by a covered cause of loss to the extent that the remaining stand will not produce at least 90 percent of your bushel guarantee and it is practical to replant. The maximum payment will be the lesser of 20 percent of the production guarantee or 3 bushels, multiplied by the price election, multiplied by your insured share. Replant is not available under catastrophic coverage.

### Late and Prevented Planting Provisions

These provisions provide coverage on acreage that is planted late or that cannot be planted by the final planting date or within the late planting period. Please consult a crop insurance agent for details.
